The venue – The Hangar

The Hangar is a modern, large-scale conference and event venue located at Copenhagen Airport, offering unmatched accessibility for international guests. Directly connected to Terminal 3, it allows participants to arrive from their flights and reach the venue within minutes.

As Northern Europe's largest airport-based event space, The Hangar features 2,500 m² of flexible floor area that can accommodate up to 2,150 participants. Additional amenities include direct access to public transport, and easy parking options.

With its combination of scale, convenience, and full-service infrastructure, The Hangar is the ideal setting for an international conference like Nordic Conference on Future Health, providing a professional, high-visibility environment right at the gateway to Copenhagen.

Welcome

We invite you to sponsor and exhibit at the joint conference on future health, organized in collaboration between the Nordic Society of Human Genetics and Precision Medicine (NSHG-PM), Statens Serum Institut (SSI) and Nordic Biobank Network.

The conference is hosted by Nordic Society of Human Genetics and Precision Medicine (NSHG-PM) and Statens Serum Institut (SSI) on behalf of BMMRI.dk and is expected to convene more than 700 participants. It will take place on September 14–16, 2026, at The Hangar at Copenhagen Airport, Denmark.

The Nordic countries have a rich history of pioneering, innovation, and global leadership in health research and healthcare. With so many new areas of discovery in precision and personalised medicine, it is timely and critical that Nordic stakeholders convene to discuss the current challenges and opportunities.

This conference will be an important arena to share knowledge and to network between Big Data biomedical scientists, biobank administrators, clinicians, biomedical industry researchers and executives, health system administrators, policymakers, educators and more.

The full program will feature plenary sessions, symposia, keynotes, and expert panels. There will also be a pre-conference program with workshops organised by the conference organisers, as well as companies in order to build capacity to conduct research and inform clinical practice in this complex field.

Highlighted conference topics

- Overviews of precision prevention, diagnosis, and treatment in the Nordics
- The potential of using biobank samples and data in precision medicine
- Research results across the spectrum of cutting-edge research
- Collaboration within the Nordic biobanks
- Legal and ethical considerations
- Citizen involvement
- Economic and policy considerations

With such a wide variety of participants at different stages of their careers, with diverse professional and research interests, at this unique and unprecedented meeting, it will be a tremendous opportunity for companies to demonstrate their products and services and to form new relationships and opportunities.

On behalf of the Local Organising Committee, we look forward to welcoming you to Copenhagen!

Organisation

About Nordic Society of Human Genetics and Precision Medicine

The Nordic Society of Human Genetics and Precision Medicine (NSHG-PM, www.nshg-pm.org) represents a rapid growing movement of scientists, clinicians and other stakeholders demonstrating the value of combining data from genomics and other -omics research with health and other registry data to allow for more precision in disease prevention and treatment.

The Society was created to:

- Establish a Nordic framework for research into the genetics of human diseases, as well as into human evolution and population history.
- Accelerate discovery of disease susceptibility genes and genes protecting from disease through integrated analyses using multiple large-scale datasets and a range of experimental designs.
- Translate these findings so that they can be used for precision medicine to improve public health.
- Uphold and promote the highest legal, regulatory, social, and ethical standards.

About Statens Serum Institut & BBMR.dk

Statens Serum Institut (SSI) is Denmark's national public health institute and a central actor in Nordic and European collaboration on biobanking, health data, vaccines, and infectious disease control. Its work supports preparedness, sustainability, and innovation in healthcare, closely aligned with the themes of the Nordic Conference on Future Health.

Denmark is represented in BBMRI-ERIC through BBMRI.dk, coordinated by SSI, which connects national biobank and registry resources to the wider European infrastructure. Through this role, SSI strengthens Nordic cooperation and ensures that Danish research contributes to global health initiatives.

About Nordic Biobank Network

The Nordic Biobank Network (NBN) was established in 2010 to consolidate and further strengthen Nordic biobanks through regular network meetings, site visits and research networks such as the Nordic ColoRectalCancer-project and Nordic Information for Action eScience Center (NIASC), both funded by NordForsk.

NBN has encouraged and continued a strong, ongoing inter-Nordic biobank collaboration based on ELSI-issues, bioinformatics/registries, high-throughput technologies, sample quality, management, and sustainability and to demonstrate the advantages of a common infrastructure for biobanks in the Nordic countries. Both Estland, Finland, Norway, Sweden and Denmark are members states of BBMRI-ERIC

Sponsorship Packages

	Platinum	Gold	Silver
Exhibition stand including 1 table, 2 chairs and electricity	18 m ²	12 m ²	6 m ²
Symposium (30-minute company-coordinated session during morning / afternoon) ¹	✓		
Full registration badge with access to scientific sessions	4	3	2
Advertisement in the programme book (printed and online)	1 page	1/2 page	1/4 page
Company logo in programme book (printed and online)	✓	✓	✓
Company description on conference website and in programme book	100 words	50 words	25 words
Company logo and link on conference website	✓	✓	✓
Short article in newsletter about company activity	✓	✓	
Price	² DKK 115,000 EUR 15.500	² DKK 65,000 EUR 8.700	² DKK 40,000 EUR 5.400

1. The conference programme offers time and space for two symposia

2. VAT (25%) will in accordance with Danish Rules and regulations be added to the invoice.

Why you should sponsor NCFH 2026

NCFH 2026 builds on the experiences from the successful Nordic Conference on Future Health in Trondheim, Norway in September 2024 ([Nordic Conference Future Health 2024](#)) as well as earlier conferences organized by NSHG-PM ([Home | Nordic Society for Precision Medicine](#)) and the Nordic Biobank Network.

This is an exceptional opportunity to connect with leading Nordic and international experts and decision-makers in precision medicine research and implementation, including Big Data biomedical scientists, biobank administrators, clinicians, industry researchers and executives, healthcare administrators, policymakers, educators, and others.

Whether your product involves instruments, reagents, software, or services, this audience represents a highly relevant and receptive group of influencers and end-users from across the field.

Showcase your organization, highlight your portfolio and research, and attract top talent at this premier gathering of leaders shaping the future of precision medicine.

Become an association sponsor

A discount of 20% on sponsorship and exhibition prices is offered to companies who have signed an industry partner agreement for 2026 with the NSHG-PM.

Please contact Jan N. Kristensen to hear more about the partner agreement at: jnk@cap-partner.eu

Terms and Conditions and General Rules

Terms & Conditions

1. Exhibit space is allocated on a first-come, first-served basis, with priority given to the sponsorship levels.
2. All company representatives must be registered, check in at the registration desk and wear name badge at all times.
3. Payment terms: Full payment is due within 14 days of signing the agreement. To ensure participation and inclusion in printed materials, payment must be received no later than 30 days before the conference.
4. Cancellation policy: The agreement is binding upon order confirmation. For cancellations made more than six months before the conference, 25% of the total fee is non-refundable, and 75% will be refunded. Cancellations within six months of the conference are non-refundable, and the full fee remains payable. This applies regardless of withdrawal or non-participation.
5. Force majeure: The performance of the specified agreement by Nordic Conference on Future Health 2026 is subject to the following events that are beyond the reasonable control of Nordic Conference on Future Health 2026, including but not limited to:
 1. War, including armed conflict
 2. Strikes or labour disputes at the event venue
 3. Government regulations
 4. Disaster, fire
 5. Infectious disease epidemics and pandemics
 6. Terrorism or threats of terrorism
 7. Curtailment of transportation facilities
6. Should any of above prevent or unreasonably delay at least 25% of the expected Nordic Conference on Future Health 2026 attendees from participating at the event, making it inadvisable, illegal, impossible, or commercially impractical to hold Nordic Conference on Future Health 2026 or to fully perform the terms of the agreement, the agreement may be terminated without penalty and with performance fully excused for any one or more of these reasons by written notice from the organiser to the company. We will endeavor to refund as much of the received fees as possible, however, Nordic Conference on Future Health 2026 reserves the right to deduct the already incurred costs of the conference before such refund. The remaining funds will be allocated proportionately among the sponsors and exhibitors.
7. Upon signature, your company contact and invoice details will be saved in our CRM system for communication and marketing purposes.

General Rules

- Additional registrations that are not company representatives must be claimed within the specified time frame; badges are personal and cannot be shared between colleagues.
- Companies must ensure that the information provided is correct and valid.
- Representatives from other companies may not ask questions during company sponsored symposia – especially when their affiliation is not disclosed.
- No one should approach a competitor's booth without disclosing their company affiliation.
- Materials must be handed out only in the exhibition area, not in the scientific area.
- Sponsors hosting a symposium may place up to two roll-up banners outside the symposium room, starting from the morning of the day the symposium takes place.
