Kristian Hveem

Kristian Hveem (MD, PhD) is a Professor in Medicine and Clinical Epidemiology at the Norwegian University of Science and Technology (NTNU) and a senior consultant at St. Olav's University Hospital, Trondheim, Norway. From 2010-2020 he was director and PI of HUNT Biobank and since 2010, PI of the national research infrastructure "Biobank Norway" (BBMRI.no) and national node director for BBMRI-ERIC. He was the first director of the Danish National Biobank (DNB) (2010-2013) and has lead the Nordic Biobank Network from 2014-2025. From 2016-2023 he was head of K. G. Jebsen Center for Genetic Epidemiology, a center of excellence in translational medicine. His main research is within molecular, genetic and clinical epidemiology.
Since 2024, he has been the scientific coordinator of the Horizon Europe-funded project INTEGRATE-LMedC, a concept development (new concept) for a European research infrastructure to manage, integrate and sustain Large Medical Cohort studies. The concept will also accelerate scientific and medical breakthroughs in Europe and beyond.
